## Soft Skills

- Capable to identify and troubleshoot technical problems.
- Excellent communication, analytical and presentation skills.
- Level headed diplomatic approach in working in groups.
- Efficient management and organizational skills.

## Professional Summary

- Above 4 years of IT experience
- I have 2+ years of experience in **Amazon Web Services (AWS),Linux Administration, Networking ,Git administration.**
- Good Knowledge on different technologies like **Docker Ansible,Jenkins,Terraform,Maven build tool,Tomcat server.**
- Experience and knowledge with **Amazon web Services Cloud Services like IAM, S3, VPC, RDS, CloudWatch, CloudFront, CloudTrail, Lambda, Route53, SNS,EFS, EBS, Auto Scaling and Elastic Load Balancer.**
- Experience on Amazon Web Services (AWS) to Build & Deploy scalable infrastructure by using various AWS resource like **AWS Code pipeline ,AWS code commit , AWS code Build ,AWS code Deploy**
- Ability in managing all aspects of the configuration management process including packaging deployment release methodology and application configuration
- Good experience in creating and managing the repositories and branches in **GITHUB.**
- Experience in developing and executing **Shell and bash scripting**
- Knowledge on**Terraform** scripting for AWS platform
- Knowledge on security concepts

## Employment Experience

### Devops Enigneer, Infinate open Source Solution LLP (IOSS LLP), Calicut,Cyberpark

07/2021 - 06/2023

- Linux server and system administration
- Configured and maintained Git repositories for multiple projects
- Created and implemented Git branching strategies to facilitate collaboration between developers
- Resolved Git merge conflicts and performed code reviews
- Monitoring infrastructure health, security and capacity on a client's environment.
- Deployment of Web apps using Developer tools like **AWS code pipe line ,AWS code commit ,Code Build , Code Deploy**
- Initiating Amazon **EC2** Cloud Instances using Amazon Web Services (**Linux/ Ubuntu**) and managing and configuring launched instances with respect to specific applications
- Working with **auto scaling and load balancing in AWS.**
- Managing client infrastructure of clients in both Windows and Linux. Launching and configuring EC2 instances using AMIs (Linux/Windows).
- Setup and manage Security Groups, VPC for specific Attaching EFS Volume to multiple instances.
- Created snapshot, AMI, Elastic Load balance & AutoScaling.
- Created SNS notifications and Cloud watch Monitoring.
- Used security groups, internet gateways and route tables to ensure a secure zone for organization in AWS public cloud
- Created and configured Elastic load balancers and auto scaling groups to distribute the traffic.
- Configured and maintained the monitoring and alerting of production and corporate servers/storage using cloud watch and SNS.
- Installing and configuring web servers.
- Increasing EBS volume storage capacity when the root volume is full using AWS EBS Volume features.

- Mounting new EBS volume to Linux and windows instances
- Creating and configuration of VPC
- moving logs into S3 buckets
- Experienced different types of monitoring tools like CloudWatch, NAGIOS .
- Setting up, configuring, and managing **Tomcat server** instances.
- Proficient in utilizing **Maven build tool** to streamline software development processes and automate project builds and dependencies management.
- Experience working on PHP projects and its CI/CD integration.
- Creating **Docker images** for testing application

## Web Developer, Oreal Soft Solutions

06/2019 - 05/2021

- Designed and developed front-end for websites, using Bootstrap, Ajax, etc.
- Translated design team's UX wireframes and mockups into responsive, interactive features, using HTML/CSS and JavaScript.
- Added the elements of SEO for a better website ranking.
- Build client websites with WordPress.
- Modify existing code as needed.
- Develop themes and plugins

## Education

### Btech Computer Science & Engineering, University of Calicut

08/2014 - 05/2018

## Tools and Technologies

- Cloud Technologies - AWS
- Configuration Management Tool - Ansible
- Operating systems - Linux(Red hat ,ubuntu,amazon linux ) and Windows
- CI/CD Tool - Jenkins
- Distributed Vcs - Git,Github,Bitbucket
- Containerisation Tool - Docker
- Orchestration- DockerSwam
- Scripting- Shell Scripting
- Code infrastructure Tool - Terraform
- Servers - apache server ,Nginx Server
- Networking Technologies - Cisco Routing and Switching
- Ticketing Tool - Jira Ticketing Tool
- Monitoring Tool - Nagios ,Prometheus and Grafana
- Databases - MySql
